

Internationalization Strategy 2018-2023

Petro Mohyla Black Sea National University

Background

Petro Mohyla Black Sea National University is the only University of classical type in the South of Ukraine, which combines western educational technologies with national traditions (Liberal Arts Education). The University proves its strong adherence to the internationalization activities by enhancing the cooperation with the partner universities and advancing the University's educational standards. The University maintains not only the international research activities on regular basis but also the foreign universities mobility programs among the students, staff and lecturers.

At a present stage, the university absorbed the experience of welcoming more than 200 lecturers from Australia, China, France, Germany, Japan, Italy, Lithuania, Norway, Poland, Romania, Russia, Southern Korea, Spain, Sweden, Switzerland, UK and USA. The University successfully completed many projects supported by the Embassies of France, Germany, Norway, Poland, Switzerland and USA. Among the others, there are summers schools, international scientific conferences and creation of European language centers.

During the last years, the University maintained productive long-term relations in the field of exchange programs related to Erasmus+ cooperation with such Partner Universities: University of Saarland (Germany), University of Cadiz (Spain), Ca' Foscari University of Venice (Italy) and Pomeranian Academy in Slupsk (Poland).

The Primary Objectives of the Internationalization Strategy

Petro Mohyla Black Sea National University pays huge attention to the development and intensification of international relations. The plans of university development have the objectives, connected with the responsive approach when conquering the challenges in the system of the educational process in Ukraine and Europe. In its research work, Petro Mohyla Black Sea National University understands the role and complexity of the worldwide tendencies and tries to implement the latest educational techniques and methodology in its learning process. The University has proved its great potential in conducting research projects involving the EU and Ukraine. By stimulating the industrial, social and human potential of the region the University contributes to the All-Ukrainian stable development in different areas.

The strategic development concept of Petro Mohyla Black Sea National University includes the usage of the Nikolaev City coastal location for the enlargement of its industrial, cultural and social infrastructure. By focusing on the priority areas for possible cooperation the University is able to prepare the future professionals in those areas, which are very useful in the City development process. Cooperation between the universities facilitates the aim of Petro Mohyla Black Sea National University to come close to European standards of research, experience and gain improved teaching subjects programs. The student and teacher mobility flows allow us to involve new educational technologies and principles of university study in our institution and to spread our views and principles all around the world.

In the process of completing the primary objectives of the Internationalization Strategy, Petro Mohyla Black Sea National University specifies the long-term goals and measures that need to be taken.

<i>The long-term goals</i>	<i>The measures for passing the long-term goals:</i>
