Relevance and Objectives of ESEDEP Project

promoting excellence in teaching and research in the field of European Union studies in the Ukrainian higher education system.

launching an active public discussion on the implementation of European standards for peacekeeping at the local, regional and national levels of government in Ukraine.

promoting the development of the education system to popularize the idea of a united Europe for Peace, knowledge about the EU in Ukrainian society, and bringing the EU closer to the Ukrainian public space.

raising awareness of the target audience about EU Common Security and Defence Policy and diplomacy in the field of military conflict resolution, international conflict management and preventive diplomacy.

cooperation of higher education institutions and other institutions that actively promote Ukraine's integration into the European security space; creating a scientific and educational network of Ukrainian and European scholars with experience in studying and researching the EU (European Studies).

educating pro-European specialists in the field of international diplomacy, increasing their career prospects by providing them with specialized knowledge of EU foreign policy and diplomacy in the course of building a system of international peace.
