

The Institute of Philology of the Pomeranian University in Słupsk

is pleased to announce

the First International Scientific and Didactic Conference

IN THE CIRCLE OF CREATIVITY: INNOVATIVE EDUCATIONAL DESIGN

which will be held on 9-10 October 2025.

The aim of the conference is to facilitate the exchange of experiences, present contemporary teaching methods and initiate discourse on scientific research related to creativity and innovation in Polish and foreign language education. The intention is to establish a forum that integrates theoretical concepts with practical applications. To this end, the following programme has been devised:

- plenary lectures delivered by distinguished experts in the field;
- open panel discussions;
- poster sessions;
- hands-on workshops for educators and students.

The primary subject areas of the conference are as follows:

1. Innovative teaching methods and their impact on teaching effectiveness.
2. Digital technologies in education: opportunities and challenges
3. The use of modern teaching techniques, with a focus on creativity and interdisciplinarity.
4. The development of teachers' competencies in the field of innovative working methods.
5. Future-oriented education, which encompasses educational models in the context of social and technological changes (e.g. gamification, flipped classroom, neuroscience).
